 LARINI SYSTEMS

LARINI is the world's leading designer of the finest high performance exhaust systems for Italian and British Supercar applications. Every Larini System offers a combination of aerospace engineering, aviation-grade [stainless steel](#) and sensational sound. A Larini System is the natural choice for those seeking to optimise the performance, weight, aesthetics, and acoustics of their Supercar.

Whether a Ferrari, Lamborghini, or Aston Martin there is a Larini [Sports](#) System available, offering sheer acoustic opera. For certain Hypercars, e.g. Ferrari F50, Formula 1 style 'Race' Systems are available also. Please view our [Featured Systems](#).

All of our products are manufactured in the United Kingdom, the home of International Motorsport, and supported by the [Larini Systems Lifetime Warranty](#).

Larini Systems was formed with a single aim - to design and develop the world's most advanced, and acoustically tuned, sporting exhaust systems. An enviable reputation of working with the world's premier Supercar marques, distributors and tuning houses has grown thanks to our team of designers and engineers. From within a state-of-the-art, 20,000 sq.ft. facility in the South of England - housing separate R&D and Production departments - their skills and knowledge, that have followed the advances in technology and manufacturing over the years, help maintain our cutting edge capability.

We have achieved our level of success by producing high performance exhaust systems that constantly push back the frontiers of precision, durability, acoustics, and aesthetics - in keeping with the ethos of the Supercar.

That is why the Larini Systems philosophy is symbolised by the slogan [Driven to Perfection](#)

- Mirror Polished Box casings
- Double Skinned Muffler Boxes
- Flush Endplates
- Laser Cut mounting Flanges and Brackets
- Mirror Polished Pipework
- Thermal Insulation
- Ceramic Coating
- Mirror Polished Tail Pipe sections
- Dual Walled Tail Pipes
- Ventilated Heat Shielding
- Tig welded construction

Larini Systems Lifetime Warranty

Advanced construction techniques and an impeccable grade of stainless steel, ensure that once fitted, a Larini System should never need be replaced.

We guarantee to replace or repair, at our discretion, any component of a Larini System or Manifold that fails due to corrosion, so long as the System remains the property of the original owner.

Conditions :

1. Exhaust fitments and engine mountings must be checked at least every 12 months by a garage and replaced as necessary. Evidence of this may be required in the case of a claim.
2. Any part, which is the subject of a claim under the terms of the Larini Systems Lifetime Warranty, must be returned. In the case of a successful claim, a maximum of £6.90 will be credited to the owner towards any delivery costs.
3. Proof of purchase must always be provided, when a claim is made.

If you feel that your Larini System has apparently failed due to corrosion, please [contact us](#) immediately. Under these circumstances you will normally be asked to send the product back to us for examination. A technical diagnostic examination will be carried out prior to any repaired System or replacement System being shipped.
